

Urgent Seminar

Regarding the Crimes of Anfal and Halabja

As we are all aware the trial of perpetrators of Anfal and Halabja is continuing without the presence of Saddam which creates a risk that these crimes would be diminished in significance and may in turn be regarded as internal crimes. Therefore, it is necessary for the Kurdish community in Britain and Kurds elsewhere to act and put pressure on the decision makers of the trial before the trail comes to an end by participating in this campaign - For:

- **The perpetrators and planners of these two crimes to be brought to justice**
- **Crimes such as Anfal and Halabja not to re-occur in Iraq or any other part of the world**
- **These crimes to be officially recognised as genocide by the Iraqi and the international law**

We should all stand together against such crimes now to avoid future regrets.

The Halabja and Anfal Remembrance Committee and the Kurdish Joint Committee in London would like to invite you for an urgent and crucial seminar.
